

PRINCE2[®] MANAGER OVERVIEW COURSE

OVERVIEW

This project management course aims to provide Senior Managers in organisations with an overview of the PRINCE2 methodology. The aim of the course is to familiarize management with the basic PRINCE2 concepts including: Components, Techniques and Processes. Emphasis is placed on the role and responsibilities of the Executive, Senior User and Supplier. On completion of the course, management will be able to be an effective management team member of a PRINCE2 project.

PRINCE2 is a method for managing projects. Structured project management means managing the project in a logical, organised way, following defined steps. A structured project management method is the written description of this logical, organised approach, PRINCE2 (**PR**ojects **IN** a **C**ontrolled **E**nvironment) is a structured project management method.

The method helps management establish who should be involved and what they will be responsible for. It gives a set of processes to work through and explains what information to be gathering along the way. Good projects, which deliver quality results, on-time and within budget are dependent on the capability of people involved from Project Board down to individual members.
